

## **SESSION 5 PARKINSONS DISEASE & MOVEMENT DISORDER SOCIETY: NELLORE (PDMDS Nellore)**

**Date: 11.08.2018**

**Venue: Axon Neuro Care Centre, Ramamurthy Nagar,  
Nellore.**

**Session: Occupational Therapy**

Under guidance of: Dr. Bindu Menon

Coordinator: Ms Deepa Ramalingam 9963665543

Physiotherapist: Dr. Shalini 9642211600

The most important therapy for the PWP's is an Occupational Therapy. Since it explains the day to day problems faced by a PWP during dressing, eating, writing and also bathing and toileting. An adjustments and alterations should be done during the day to day activities were explained. This helps the PWP's to do their work without any difficulties and also with the safety measures.

As most of the slips and falls occurs in bathrooms and toilets safety alterations to be made in home were explained.
